

# Brain Day 2019

March 23 10am-3pm

Discover the magic of the brain with public talks by leading neuroscientists. Experience brain science through interactive displays, brain games and challenges from our Being Brainy programme. Hear from community groups about what they are doing to support people living with brain disorders.

## Brain Day Public talks:

**Revolutionising Stroke**

**Rehabilitation** • Professor Cathy Stinear • 10.30am

**The Magic and Excitement of the Human Brain** • Distinguished

Professor Sir Richard Faull • 12noon

• **Migraines and Headaches** •

Professor Debbie Hay • 1.30-2.30pm

**Where:** University of Auckland, Faculty of Medical and Health Sciences, 85 Park Rd Grafton
